

Abstract

Yellow disperse dye mixture which has a high level of light fastness

- 5 The present inventions refers to a dye mixture comprising from 25 to 80 % by weight with respect to the total dyestuff fraction of the yellow dyestuff represented by the structural formula [1]

- 10 and from 75 to 20 % by weight with respect to the total dyestuff fraction of a yellow dyestuff represented by the structural formula [2]

wherein R denotes a C₁ to C₄ hydroxyalkyl group.
